P.T.A. Carnival

The Parent Teacher Association of the Statesboro High School will have their annual carnival at the Statesboro High School on Friday evening, October 29. Though the object of the carnival is primarily to make enough money for the operating expenses of that organization for the entire year, the committee hopes to make the occasion a source of entertainment that will fitly mark the Halloween season.

The carnival will be transferred on that evening to resemble the midway of a large fair, Bingo Stands, Hot lunch stands, The Little Red School house, The Crowning of the Queen, all these features and many others will invite you to part with a nickel here and a dime there. Experience bakers will whip up a small admission fee of a dime for adults and a nickel for children will be charged.

Remember the date, Friday evening, October 29, at 7:30 o'clock at the Statesboro High School. Those who care to may come in Halloween costume. It would add color to the carnival and help to enliven the general atmosphere. Let's make it a gala event.

H.V. Marsh Back From Showing Of New Chevrolet

Mr. H. V. Marsh, of the Marsh Chevrolet Company, has just returned from Atlanta, where he attended the pre-showing of the 1938 model Chevrolets. Mr. Marsh stated that this annual preview was for the purpose of familiarizing all Chevrolet dealers and salesmen with the new Chevrolet and the rolling plans and advertising activities scheduled for the balance of 1937 and 1938.

Mr. Marsh is very enthusiastic over the new model and states that the indications at the meeting are that the public acceptance of the 1938 Chevrolet will be more enthusiastic than ever before. He stated that the new car has a great many improvements in the body, chassis, and the interior, making it an even finer car than the 1937 model.

He stated that he already has a number of orders for the new Chevrolet, even though the buyers have not seen it. He says that he learned while in Atlanta that already many thousands of orders have been placed for the new car—slight unseen by the buyers.

In commenting on the trucks, Mr. Marsh said that the increasing need of truck replacements and growing use of commercial cars on the farm indicate a larger truck sales this year.

FARM TO FARM

By Byron Dyer

Good corn is always an asset to a farmer, declares D. B. Franklin. After a farmer makes a crop of good quality corn, Mr. Franklin thinks that it is wise to provide a storage place for it that will keep it away and better, and a vegetable, preferably raw, as well as fruit and a small amount of sweet for dessert. The vegetable may be used for sandwich filling. Or it may be prepared in salad form or as vegetable sticks, such as carrot or turnip stick, or celery stalks.

Here are some ideas about lunch preparation which some mothers have found helpful: Prepare sandwich fillings the night before. Sometimes put in plain bread and butter sandwiches inside and outside, according to Russell DeLoach. Paint on the inside of the home adds beauty to the place in which we live.

Why not provide a lace just as good to slaughter the home supply of meat as the various cities require for the meat within their limits, asks Cap Mallard. Cap has built a farm slaughter house that is practical on any farm yet it is not very expensive.

When school lunches are carried from home. By Elvie Maxwell. Most rural mothers agree that it better for the children to have at least one hot food for the school lunch. Where this cannot be prepared at home, a vacuum bottle may be used to bring hot soup, hot cocoa, or some other hot food, if there is a good arrangement at the school for serving the children while they eat.

In any case, a part of the lunch must be carried from home every day. It takes forethought and in-

Opinions seem to differ as to whether or not the older children should help to pack the school lunches. One mother thinks, "By all means. It is good experience and saves my time." Another believes it is better appetite aid if each day's lunch is a pleasant surprise, and for that reason the children should not help to pack it.
